Fire Restrictions

Current Status	Campfire & forest activity restrictions. Applicable to recreational fires under 48" in diameter on private lands in Jefferson County
X	**No restrictions on campfires or forest activities**
	Stage 1 Restrictions: Campfires prohibited; smoking limited to areas cleared of vegetation.
	Stage 2 Restrictions: Stage 1 restrictions plus 1pm-1am mechanical forest activity limits with patrol requirement.
	Area closures: None
Current Status	**County debris burning (slash pile burning) restrictions.** Applicable to fires over 48" in diameter on private lands in Jefferson County BBQ pits and burn barrels are considered open fires on **DNRC Forest Classified** lands and therefore require a burn permit in those locations even if under 48" in size. (36.10.132(10), ARM)
X	**No debris burning restrictions county-wide.** County burn permit & permit activation required.
	Some fire districts/fire service areas with debris burning closures:
	Debris burning closed county-wide.
Current Period	**Montana DEQ air quality burn restriction period.**
	Spring/Summer burning period (March 1 – August 31): County burn permit & permit activation required.
X	**Fall burning period (Sept.1 – Nov 30):** County burn permit & permit activation required. The burner also must check DEQ ventilation hotline (800-225-6779 or www.burnclosures.mt.gov) for current air quality conditions.
	Winter burning period (Dec 1 – Feb 28): DEQ application & approval required for burning*. County burn permit & county permit activation is still required in addition to DEQ permit. Call MT DEQ at 406-444-3490

Fire Restrictions Narrative Summary

Debris burning (slash pile burns over 48" in size) is open county-wide. Jefferson County is in Montana DEQ's fall air quality burn period, meaning **burners must check the DEQ ventilation hotline** for current air quality conditions prior to burning. **Burners are required to have a county burn permit and must activate their permit each day of their burn.** Burners can visit https://app.egovmt.com/burnpermit/ to purchase and activate their Jefferson County permits. Those conducting burns must never leave the burn unattended, must clear the area around the burn of flammable material, and must always have a suitable source of extinguishment available. Burners should also check the forecast for the day of and for the days following the burn. Burns should be cancelled should any adverse weather conditions be predicted.

ACTIVITY SUMMARY

Burn Permit Data

Data Point	Current YTD	Previous Report YTD	2025 Total
Total Permit Sales	604	594	691
Total Activations	1379	1321	1652

The Jefferson County, MT Situation Report is a weekly product of Jefferson County's Office of Emergency Management.
Conditions data points are as of the morning of the issuance of the Situation Report, while activity data points are for the previous week.
Situation Report Incident Editions may occur in the event of major incidents.
Major incidents are generally incidents with widespread impacts or incidents whose duration is greater than one operational period.
